Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 December 1005.
- 2a) ☒ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

The amendment of December 2, 2005 is hereby acknowledged and entered.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims Pending

Applicant has cancelled claims 7-11. Claims 1-3 and 5-6 are pending.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-3 and 5 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for an aqueous extract of *Galla Rhois*, *Artemisia folia*, *Sophorae flavescens*, *Phellodendri cortex* and *Torilis anthriscus*, does not reasonably provide enablement for the plants themselves. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make or use the invention commensurate in scope with these claims.

Undue experimentation would be required to practice the invention as claimed due to the quantity of experimentation necessary; limited amount of guidance and limited number of working examples in the specification; nature of the invention; state of the prior art; relative skill level of those in the art; predictability or unpredictability in the art; and breadth of the claims. In *re Wands*, 8 USPQ2d 1400, 1404 (Fed. Cir. 1988).

Applicant's claims are broadly drawn to plants of *Galla Rhois*, *Artemisia folia*, *Sophorae flavescens*, *Phellodendri cortex* and *Torilis anthriscus*. The specification is not considered to enable this use. Applicant's specification discloses only aqueous extracts of *Galla Rhois*, *Artemisia folia*, *Sophorae flavescens*, *Phellodendri cortex* and *Torilis anthriscus* and does not give any indication in the specification that the plants themselves would actually work. The only

Art Unit: 1655

method shown to be effective is the aqueous extracts. Applicant does not discuss other known means of using the plants themselves. Thus, Applicant does not provide enough information for a person of ordinary skill in the art to determine without undue experimentation that plants of *Galla Rhois*, *Artemisia folia*, *Sophorae flavescens*, *Phellodendri cortex* and *Torilis anthriscus* claimed are able to be used in a composition.

It appears that Applicant was not in possession of a composition comprising the plants rather: that they were in possession of a composition of extracts of the plants.

Summary

No claim is allowed.
